SCOPE: To ensure Group Health Cooperative of Eau Claire assists our membership in receiving the highest quality, most effective health care. ImPACT testing is used to compare the post-concussion ImPACT results against pre-injury test results. It was specifically designed as a tool in the management of sport related concussions.

- ImPACT Testing is a 20-minute test that has become a standard tool used in comprehensive clinical management of concussions for athletes of all ages.
- ImPACT is implemented for high school, collegiate, and professional levels of sport participation.
- ImPACT can be administered by an athletic trainer, school nurse, athletic director, team coach, team doctor, or anyone trained to administer baseline testing.

POLICY: **Prior authorization required: Yes**

State of Wisconsin/4201 Commercial: ImPACT Testing (Immediate Post Concussion Assessment and Cognitive Testing) is a computerized concussion evaluation system. Impact testing is considered a non-medical service related to participation in athletics and is **not covered** under the health insurance benefit.

BadgerCare Plus/SSI Medicaid: ImPACT Testing, computer based neuropsychological post-concussion test is a covered benefit for WI BadgerCare. Is covered when medically necessary as determined by the physician reviewer.

Associated Codes: 96120 neuropsychological testing, administered by a computer, with qualified health care professional interpretation and report
310.2 post-concussion syndrome, or
850.0-850.9 concussion

The administration of a pre-concussion base line test is not reimbursable.
