**SCOPE:** To ensure Group Health Cooperative of Eau Claire correctly authorizes services for Partial

Hospitalization and/or Day Treatment Programs consistently administering per member's

policy benefit.

**POLICY:** It is the policy of Group Health Cooperative of Eau Claire that these services may not be billed in conjunction with outpatient therapies (individual, group, family, or in home) unless

an exception is made by the case manager in consultation with the HM Manager/CMO.

PROCEDURE: Prior Authorization: YES

### **DEFINITIONS:**

The terms Partial Hospitalization Program and Day Treatment are used interchangeably by providers and are considered the same level of care.

**Partial Hospitalization Program:** Services are provided for a minimum of 12-15 hours per week and a maximum of 25 hours per week usually for a maximum of 2-3 weeks and is used to stabilize severe symptoms. The focus of this type of program is intensive therapy. Medication management is often offered in conjunction with this service but is billed separately. Services include individual, family, and group therapy, medication management, and academic instruction.

**Day Treatment Program:** Services are provided for a minimum of 12-15 hours per week and a maximum of 25 hours per week for up to several months in duration. Designed for children and adolescents who have emotional, behavioral, and/or substance abuse problems and may be at high risk of out of home placement and/or is unable to be managed in the school setting despite interventions. Services include individual, family, and group therapy and intensive coordination with schools and/or other county/treating agencies.

## Required components of partial hospitalization/day treatment:

- Family therapy must occur at a level of frequency and intensity needed to achieve treatment goals (a minimum of once per review/period)
- Prompt family involvement is expected at every level of treatment including assessment, development of treatment plan, and discharge planning
- The member should transition to an alternate level of service at the completion of day treatment programming, whether that be more or less intensive services.
- Coordination with school and/or county agencies
- Psychiatric evaluation/medication management as appropriate

## **COMMERCIAL**

<u>Criteria for Prior Authorization for Services:</u> Partial Hospitalization or Day Treatment services are considered medically necessary when the following criteria are met:

- 1. Available clinical documentation is reviewed using InterQual guidelines, which evaluate the current symptoms, impact on functioning, and the member's support system, AND
- 2. Compliance with the following requirements:
  - a. Claims history/documentation must demonstrate a history of consistent outpatient therapy which has failed to result in improvement of symptoms. All other treatment options/lower levels of care must have been considered before day treatment services are pursued.
  - b. Compliance with medication management interventions where applicable

Member plan of care must demonstrate significant improvement through short term therapy.

### **MEDICAID**

<u>Criteria for Prior Authorization for Services:</u> Partial Hospitalization or Day Treatment services are considered medically necessary when the following criteria are met:

- 1. Available clinical documentation is reviewed using InterQual guidelines, which evaluate the current symptoms, impact on functioning, and the member's support system, AND
- 2. Compliance with the following requirements:
  - a. Annual Health Check Screening with primary care physician must have been completed within the last 12 months.
  - b. Claims history/documentation must demonstrate a history of consistent outpatient therapy which has failed to result in improvement of symptoms. All other treatment options/lower levels of care must have been considered before day treatment services are pursued.
  - c. Compliance with medication management interventions where applicable
  - d. Forward Health requires a psychiatric evaluation prior to beginning day treatment services. Due to the limited availability of child psychiatrists, GHC waives this requirement in most cases.

## When requesting this level of service, the provider should submit the following:

- ✓ Partial Hospitalization Program Prior Authorization form
- ✓ A clinical assessment that identifies current symptoms/behaviors, level of functioning affected, and availability/competency of support system
- ✓ Documentation indicating the member has completed a Health Check Screen in the past year (for MA members only). This must be a Health Check screen and include a BMI, anticipatory guidance, physical examination and health and developmental history. Appropriate CPT codes for this exam include 99381-99385 & 99391-99395. Either an appropriately billed claim must be on file, or clinical documentation from the appointment to verify that a Health Check was performed. A signed Health Check referral form does not suffice.
- ✓ Other relevant supporting documentation from the member's school, social worker, therapist, etc.
- ✓ Psychiatric evaluation when available

# If requirements are met and services are determined to be medically necessary, the following apply:

- ✓ To be billed with CPT H2012 (MA), commercial cases may bill either H2012 or H0035
- ✓ Treatment is reviewed monthly.
- ✓ Total treatment duration should be no more than nine months, with expected transition to appropriate alternate level services at that time.

#### **Continued Services:**

- Treatment progress is to be monitored through case management efforts and provider's resubmission of authorization for these services.
- When requesting authorization for continued services, the provider should submit the following:
  - ✓ Group Health's Partial Hospitalization Program Prior Authorization form
  - ✓ Updated clinical information indicating current symptoms and functioning, compliance with treatment/medications, attendance, and progress made toward treatment goals, compliance and involvement of support system.
  - Clinical notes from family therapy sessions should be included with requests for concurrent services.
  - ✓ Total treatment duration should be no more than nine months.
- Authorization of continued services will be determined based on service limits, compliance with above listed requirements, and whether this level of care continues to be medically necessary based on the clinical information provided.
- A limited time period will be allowed for transition back to full time school and outpatient therapy, generally up to one additional month after Day Treatment intensity level of care criteria are no longer, but still not to exceed a total of nine months.
