

- Prior authorization applies to all Group Health Cooperative plans including Commercial, Badger Care Plus, Medicaid SSI plans and Medicare Advantage plans.
- Authorization for services does not guarantee payment for services. Payment for services is dependent on other non-medical criteria such as the benefits associated with a member's specific plan and eligibility issues.
- Please note: If a member receives services that require an approved authorization by the Cooperative and such authorization was not obtained, or the prior authorization was denied because services were not deemed medically necessary, all related services and/or follow-up care related to the services will be denied. This includes any ancillary, facility, and professional charges.
- Prior authorization requirements apply whether or not the Cooperative is primary or secondary coverage.
- The following list is not all-inclusive
